A POWERFUL VISIONARY FOR THE FRAFRA PEOPLE

Peter Awane grew up in his Frafra tribe on the northern edge of Ghana, West Africa, in the grasslands of the Sahara desert. When he was a child, Peter heard the gospel of Jesus Christ and his life was transformed. During the years that followed, he spent over 20 years translating the Old Testament into his mother language. He is a pastor and an evangelist.

Peter faces many challenges. It takes two full days to get to his village from Accra, the capital city on the southern border of the country. In times of good rainfall, the supply of grain is plentiful, but vegetables and fruits are almost always scarce. Many other items are very hard to come by. For instance, it can take a full day just to find a place to buy a spare tire. In addition, people in his area live in fear of doing something that will anger their ancestral gods or the gods of nature.

Peter currently runs a radio

Changing lives in Frafra villages of northern Ghana

station, to proclaim the gospel throughout his region, and a Christian school for 60 children whose teachers must work as volunteers, due to lack of funds. Peter's vision is a development project that will transform the lives of thousands in the coming years.

As you receive this newsletter, ASON's team will be in Ghana with Peter - putting his detailed vision on paper,

running a daylong conference for Pastors, evangelizing in 3 tribal villages, and rescuing Frafra Bibles for the transformation of Peter's people.

Peter's children need you! Will you sponsor a child for \$25 monthly? If you sponsor before we come home, Peter will take a photo of me with your new child! E-mail ellen@ason.org to make it happen.

My God is Greater Than Yours

Peter has been diligently discipling the people in his church and school. One of his disciples, a 16 year old girl was told by her father that she could not attend Peter's church because the gods would be angry and would kill a member of the family. The girl's faith was

strong, so she kept going to school and church. But, one day her father's curses caused boils to erupt on her skin. She went to church where the people surrounded and prayed for her. She was healed and went home with these words for her father, "My God who

rescued Daniel from the mouths of hungry lions, is greater than yours."

18 Year Old Charan - Helping to Change the World!

GOD IS WORKING IN INDIA

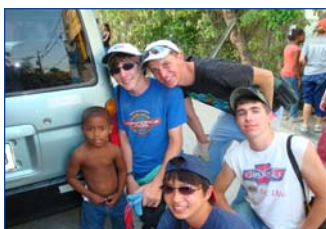

ASON has two development projects in India. They both have very fruitful ministries. One of the projects has 12 church planters working in 26 villages. They have baptized 166 new believers in three years, most of whom had never heard the name of Jesus before! In the second development project, there is an orphanage with 10 children who are being raised as Christian leaders and with hope for

the future. The eight church planters in this area have 47 home churches, and lead about 50 people to Christ each month.

Before he became a believer, Charan had broken his leg. After 6 months it was not healing. One of our church planters went to his home to share the gospel with him. After prayer and a period of a month or so, his leg was healed and he decided to

follow Christ. Since then he has completed a yearlong church planting school, has been leading 6 home churches and has baptized 16 new believers. Charan is just 18 years old!

Join our Spring India team and be thrilled to meet some of these incredible people! It would encourage them beyond description.

I'll never be the same. This mission team has changed my life. Things are going to change, starting now!
