

ASON International
Sponsored Child Gift Policy

Assisting National Christian Leaders Accomplish Their God-given Visions

Dear Child Sponsor:

At ASON, we understand that you want to bless your sponsored child with personal gifts from time to time. Unfortunately, we have learned that it is usually best if sponsors do not send physical gifts to their children. Physical gifts may lead to jealousies among the children and in the community, especially if they are too extravagant for the culture.

You may, however, send *flat* items no larger than a piece of paper (bookmarks, photos without frames, picture post-cards, etc.) and letters to your child. These simple tokens from you are very significant to your child. You need do no more!

While your letters are delivered rapidly via e-mail to your child, please understand that personal gift items for children take much longer to deliver.

Gift items for children in the Dominican Republic will be delivered by mission teams traveling to the DR several times a year.

Gift items for children in Ghana and India are taken to the children when a team travels to the respective countries. These visits are not as frequent as those to the Dominican Republic because of distance and expense.
